

TARIQ LASHLEY

Calgary, AB | (639)-382-5348 | tariqlash@gmail.com | tariqlashley.com

PROFESSIONAL SUMMARY

Computer Science graduate who builds and ships full-stack web applications independently. Experienced with the full development lifecycle from designing APIs and databases to deploying production apps. Holds AWS Cloud Practitioner and CompTIA Security+ certifications. Brings strong debugging instincts and clear communication developed through real-world project work and collaborative team environments.

CERTIFICATIONS

CompTIA Security+ (2026) | AWS Certified Cloud Practitioner (2025)

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, TypeScript

Frontend: React, Next.js, Tailwind CSS, HTML/CSS

Backend: Node.js, REST APIs, Auth.js, session management

Databases: MongoDB, MySQL

DevOps & Cloud: AWS (EC2, IAM, S3), Vercel, Git/GitHub, environment configuration

Security: Network security fundamentals, access control, OAuth

PROJECTS

ContractLens | Next.js, TypeScript, Anthropic Claude API, Tailwind CSS 2026

- Built and deployed an AI-powered Solidity smart contract security analyzer that classifies vulnerabilities by severity and generates remediation recommendations in seconds
- Designed a structured JSON prompt pipeline using Claude as a senior auditor, parsing responses into risk scores, severity stats, and individual finding cards
- Implemented IP-based rate limiting, session-based save and rename functionality, and preloaded demo contracts for immediate exploration

Locked-In Habit Tracker | Next.js, React, MongoDB, Auth.js 2024

- Shipped a live production app (locked-in-rouge.vercel.app) with Google OAuth + credential login, session management, and protected routes
- Engineered a dynamic heatmap that visualizes 90+ days of habit data, handling real-time state updates and MongoDB queries
- Deployed to Vercel with automatic redeployment on push, environment variable management, and MongoDB Atlas integration

EXPERIENCE

Calgary Public Library Calgary, AB
Technology Volunteer February 2026 - Present

- Resolved 15+ tech issues per shift across Windows, macOS, and mobile devices, including Wi-Fi, account lockouts, email configuration, and cloud storage setup
- Reduced repeat visits by leading 1-on-1 sessions with seniors and newcomers on device setup, browser navigation, and online services like Google Drive and Outlook

JJJ Painting Regina, SK
Freelance Web Developer January 2024 - July 2024

- Built and launched a client-facing website (React, Tailwind CSS) from scratch that directly generated 5 new customer inquiries within 3 months

- Configured hosting, DNS, and deployment pipeline; managed ongoing updates with zero downtime
- Implemented basic SEO optimizations that moved the business onto page 1 of local Google search results

Staples

Regina, SK

Sales Associate

July 2021 - February 2023

- Supported 40+ customers daily across tech and office supplies departments, troubleshooting laptops, printers, and networking questions while handling product recommendations and sales on the floor
- Trained 3 new hires on POS systems, inventory tools, and store operations, cutting their ramp-up time
- Managed stock audits and inventory updates across the tech department, maintaining shelf accuracy

Roche

Mississauga, ON/Remote

Biostatistics Intern

May 2020 - August 2020

- Delivered a data analysis tool used by 10+ biomarker scientists to query, visualize, and explore internal datasets, reducing manual analysis
- Debugged and shipped a file upload feature allowing users to submit custom gene signatures for automated analysis, eliminating a manual handoff step
- Coordinated daily with a 5-person dev team using GitHub for version control and code reviews

EDUCATION

University of Regina

June 2025

Bachelor of Science in Computer Science

Regina, SK

ADDITIONAL

- Competed in swimming at the international level for 15+ years, representing Canada and Trinidad; University of Regina Varsity Sport Award recipient (2024)
